

## Second Term Course Programme Academic Year 2006-07

All current 1st year students must follow a total of at least 4 courses (maximum 6) chosen from Advanced Block 1 and Advanced Block 2, between the end of February and the end of May, of which they must pass at least 3 to be considered for promotion to the 2nd year. In making these choices, they should also remember that by the end of their 2nd year they should have passed 6 Advanced Core courses, 2 each in Macro, Micro and Econometrics, plus 2 additional Advanced courses, chosen freely from among the Advanced Core and Non-Core (or Optional) courses, for a total of 8 courses. Current 2nd year students must ensure that by the end of their 2nd year they have passed the exams of 8 Advanced Courses, of which 6 should be Advanced Core courses (2 must be in each of the 3 fields).
