Other Contributions	216
Datasets	242

ANNEX SPECIAL COLLECTION:

EUI COVID-19 Pandemic Collection	247
--	-----

FOREWORD FROM THE DEAN OF RESEARCH

The European University Institute (EUI) is an international institution devoted to teaching and research at the highest university level, focusing on European issues, the cultural and scientific heritage of Europe, and its institutional historical development. It hosts four disciplines in the social sciences, Economics, History, Law, and Political Science, together with interdisciplinary research programmes on the major issues confronting contemporary European societies, the construction of Europe, and its policies.

Over the years, the Institute has developed world-class research and expertise thanks to its outstanding international faculty. With this intense activity, the EUI stimulates and nurtures research networks to advance knowledge in the Social Sciences and Humanities and address great challenges. It also acts as a bridge between theoretical and applied research; between academia and the world of practice and policy, including national and European institutions.

The EUI has developed one of Europe's largest doctoral and postdoctoral programmes in the social sciences and humanities, including the Max Weber and Jean Monnet Programme. Together with an outstanding faculty and a professorial staff, these young scholars form a vibrant research community that plays a major role in European and international networks, research groups, and scientific journals. The publications listed in this report attest to the dynamism and excellence of the whole EUI academic community and serve to make the EUI research output better known in both academic and non-academic milieus.

I am honored and proud to introduce the extensive publication activity of the EUI's vibrant research community, the 14th EUI directory of 2021 academic publications and data, containing more than 1200 contributions.

This year's edition has an annex with the Special collection EUI COVID-19 related research output with more than 100 contributions. The traditional sections of the directory contain 85 books, 122 book chapters, 97 theses, 418 journal articles, 150 working papers, 258 research reports, lectures, policy briefs and papers, and 16 datasets).

At the time of writing – but not contained in this report for 2021, Cadmus has a 'collection' of [Ukraine –related research outputs](#).

Readers wishing to see the latest EUI publications should consult Cadmus, the EUI Research Repository <https://cadmus.eui.eu>, which is updated daily and where an increasing proportion of our output is made available in Open Access.

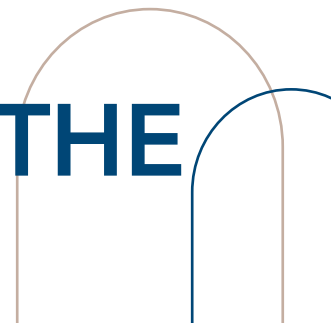

In line with the [EUI policy for Open Access](#), the Institute aims at making research as widely available as possible, and, as Dean of Research, I invite all faculty, researchers, and fellows to make as much of our research available in Open Access.

Giacomo Calzolari

EUI Dean of Research

Florence, April 2022

INTRODUCTION FROM THE EUI LIBRARY DIRECTOR

I am pleased to present the 14th instance of the EUI Academic Publications and Data directory covering the EUI members' contributions that appeared in 2021.

The Directory, drawn from Cadmus, the EUI Research Repository, is traditionally organised by different types of publications: books, theses, articles, contributions to books, working papers, research reports, and datasets.

This 2021 edition also contains a separate last chapter including all the EUI contributions on the COVID-19 crisis, gathering publications by the EUI academics who have contributed to the research on the impact and consequences of the pandemic. At the beginning of 2020, the Library decided to present the material in a new collection entitled '[COVID-19 Pandemic](#)'. This collection also contains more than 100 contributions appearing in 2021 and includes both traditional and non-traditional academic outputs (such as blog posts, podcasts or registered video conferences on the subject).

Cadmus has since 2021 a complete archive of [The State of the Union\(SoU \) conferences](#), with detailed bibliographic descriptions of all the interventions. The 2021 SoU conference theme was Europe in a Changing World.

A total of 66 % of 2021's research outputs are Open Access (highlighted in orange). I am very pleased to announce that for the second time outputs in OA exceed the non-OA content. In 2021 Cadmus page views were nearly 1 million.

The EUI Library supports the members of the EUI academic community in their efforts to publish Open Access through '[Transformative and Special Agreements](#)' with publishers, and, since 2022, through a small '[EUI Fund for Article Processing Charges \(APCs\)](#)'. The Library also has a special fund for [Fair Open Science initiatives](#) aiming at supporting no-profit forms of OA.

I feel the need to acknowledge the Library's Open Science team which checks and assists EUI authors to know which version of a publication is possible to make available in OA.

Members of the EUI are required to include their publications in Cadmus. Publications listed in Cadmus are automatically pushed to EUI members' ORCID profiles when they have connected them to EUI Cadmus <https://cadmus.eui.eu/ORCID/>. This service to authors results from an ORCID–Cadmus integration facilitated by the Library's ORCID membership.

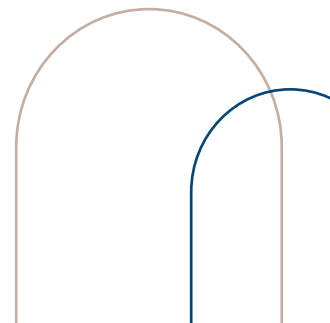

Finally, I would like to thank all the members of the EUI community who submit their publications accurately to Cadmus, choosing where possible Open Access.

Josep Torn

EUI Library Director

Florence, April 2022

EUI RESEARCH, OPEN ACCESS AND CADMUS

The [EUI Open Access Policy](#) encourages scholars to facilitate the widespread dissemination of their research by making their publications available in Cadmus, the EUI's Research Repository.

The EUI has signed the following milestone declarations of the open access movement:

- the Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities (in 2011)
- the Budapest Open Access Initiative on its 10th Anniversary (in 2012)
- the European Open Science Cloud (EOSC) Declaration (in 2017). All institutions endorsing EOSC

The EUI institutional repository, Cadmus, registers EUI members' academic publications and data produced during their time at the Institute and those based on research carried out here.

Cadmus promotes the visibility of EUI research, and enables EUI academic community to make their research available online. Over the years, an increasing proportion of publications in the repository are available in Open Access.

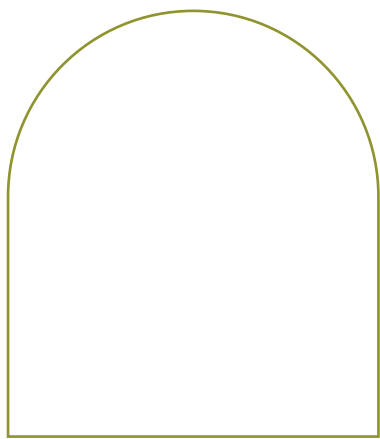

Cadmus figures

- EUI Research Output 2021: 1.200
- Open Access Output 2021: 793 (66%) compared to 54 % in year 2020's publications
- Research Data 2021: 16
- Covid-19 Pandemic collection 2021: 103
- Total records: 27.555
- Total Open Access publications: 11.708 (42,5 %) - [All OA publications](#)
- Yearly visits: 364.000
- Yearly page views: 1 million
- Records added to Cadmus in 2021: 1.765

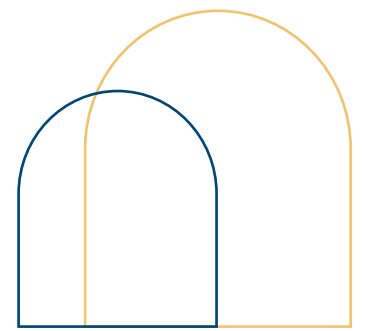

The European University Institute is an institutional supporting member of ORCID since November 2017. [ORCID iD](#), the Open Researcher and Contributor ID, is an alphanumeric number which uniquely identifies authors in the academic and scientific publishing world.

In this document, a green padlock indicates publications now available in open access, while the grey padlock indicates embargoed publications that will eventually be available in open access.

EUI COVID-19 PANDEMIC COLLECTION

ANNEX

The EUI Library created this special collection in Cadmus entitled 'COVID-19 Pandemic' in April 2020. It belongs to the community 'EUI Public Commentary'. The collection contains any type of contribution by EUI members on COVID-19, ranging from traditional publications such as articles or chapters to other material such as videos, podcasts and blog posts. It contains more than 100 contributions issued in 2021. Records for the books, contributions to books, articles, working papers, research reports, datasets and other publications found in the COVID-19 Pandemic Collection are also included in this report in their respective sections. The 23 Covid-19 related videos are not contained in this list but part of the collection.
