# FOREWORD FROM THE DEAN OF RESEARCH

Welcome to the 15th edition of the EUI directory of academic publications and data. As an international institution devoted to teaching and research at the highest university level, the EUI has built a reputation for world-class research and expertise in the social sciences and humanities, in particular in the disciplines of economics, history, law, and political science, together with interdisciplinary research programmes on the key issues confronting contemporary societies, the construction of Europe, and its policies.

The EUI brings together a diverse group of experts, including early-stage researchers and outstanding international faculty, to tackle contemporary societal challenges and advance knowledge in their respective fields. The EUI bridges theoretical and applied research and the world of practice and policy, collaborating with national and European institutions.

One of the key factors behind the EUI's success is its doctoral and postdoctoral programmes in the social sciences and humanities, which include the Max Weber and Jean Monnet Programmes. This vibrant research community, composed of exceptional junior and senior scholars and professorial staff, plays a major role in European and international networks, research groups, and scientific journals.

As Dean of Research, I am proud to introduce this report, which showcases the extensive publication activity of our academic community, its excellence, and its dynamism.

This year's directory includes over 1000 contributions, including 66 books, 112 book chapters, 113 theses, 376 journal articles, 126 working papers, 207 research reports, lectures, policy briefs, and papers, as well as 4 new datasets. These publications attest to the vibrancy and excellence of our academic community, and we are pleased to make them more widely available in both academic and non-academic settings.

In addition to this directory's traditional sections, we have expanded our special collections in Cadmus, the EUI Research Repository, which now includes collections on Ukraine-related research outputs, COVID-19-related research output, and the 2022 State of the Union collection, among others. Readers wishing to see the latest EUI publications should consult Cadmus, the EUI Research Repository <https://cadmus.eui.eu>, which is updated daily and where an increasing proportion of our output is made available in Open Access.

In line with the EUI policy for Open Access, the Institute aims to make research as widely available as possible. As Dean of Research, I invite all faculty, researchers, and fellows to make as much of our research available in Open Access.

Once again, I am honoured to introduce the 15th EUI directory of academic publications and data, and I hope that readers will find it informative and valuable. I sincerely thank our scholars for their hard work advancing knowledge and addressing societal challenges and our professional staff for their unwavering support in this research endeavour.

Giacomo Calzolari  
EUI Dean of Research  
Florence, April 2023

# INTRODUCTION FROM THE EUI LIBRARY DIRECTOR

I am pleased to present the 15th instance of the EUI Academic Publications and Data directory covering the EUI members' contributions appearing in 2022.

The Directory is traditionally organised by different types of publications: books, theses, articles, contributions to books, working papers, research reports, and datasets.

Cadmus also has a complete archive of [The State of the Union \(SoU\) conferences](#), with detailed bibliographic descriptions of all the interventions. In 2022 the SoU theme was 'A Europe Fit for the Next Generation?' and treated climate emergency, digital transition, transatlantic relations, the EU recovery plan, and the war in Ukraine and its complex geopolitical, economic, and legal ramifications. Due to the war in Ukraine, the Library opened in 2022 a special [EUI collection for Ukraine –related research outputs in open access](#).

A total of 69 % of 2022's research outputs are Open Access. I am very pleased to stress that this is a growth compared to last year and that it is the third time outputs in OA exceeds the non-OA content. I would like to acknowledge the Library's Open Science team which checks and assists EUI authors to know which version of a publication is possible to make available in OA. During 2022 the page views of Cadmus reached over 1 million visits.

Members of the EUI are required to include their publications in Cadmus. Publications listed in Cadmus are automatically pushed to EUI members' ORCID profiles when they have connected them to EUI Cadmus <https://cadmus.eui.eu/ORCID/>. This service to authors results from an ORCID–Cadmus integration facilitated by the Library's ORCID membership. One new aspect and functionality of Cadmus since December 2022, is the audio / video streaming possibility of EUI Distinguished Lectures and recorded presentations of EUI PhD and Master theses.

The EUI Library supports the members of the EUI academic community in their efforts to publish Open Access through 'Transformative and Special Agreements' with publishers, and, since 2022, through the 'EUI Fund for Article Processing Charges (APCs)'. The Library also has a special fund for Fair Open Science initiatives aiming at supporting no-profit forms of OA.

Finally, I would like to thank all the members of the EUI community who submit their publications accurately to Cadmus, choosing where possible Open Access.

Josep Torn

EUI Library Director  
Florence, April 2023

# EUI Research, Open Access and Cadmus

[EUI research](#) embraces interdisciplinary, comparative or contextual approaches, and many of our initiatives have a specifically European perspective. Our research strategy promotes interaction among EUI scholars at all career levels and policymakers the world over, making lasting contributions in the realms of research and policy. The [EUI Open Access Policy](#) encourages scholars to facilitate the widespread dissemination of their research by making their publications available in Cadmus, the EUI's Research Repository.

## The EUI has signed the following milestone declarations of the open access movement:

---

In 2022 the [EUI endorsed the 20th anniversary Statement of the Budapest Open Access initiative](#). EUI Dean of Research, Professor Giacomo Calzolari, and Library Director, Pep Torn, confirm the EUI's position at the forefront of the Open Access movement by signing and endorsing the Budapest Open Access initiative (BOAI20) on its 20th anniversary.

---

The European Open Science Cloud (EOSC) Declaration  
(in 2017)

---

The Budapest Open Access Initiative on its 10th Anniversary  
(in 2012)

---

The Berlin Declaration on Open Access to Knowledge in the  
Sciences and Humanities (in 2011)

The EUI institutional repository, Cadmus, registers EUI members' academic publications and data produced during their time at the Institute and those based on research carried out here.

Cadmus promotes the visibility of EUI research, and enables EUI academic community to make their research available online. Over the years, an increasing proportion of publications in the repository are available in Open Access.
