# INTRODUCTION FROM THE EUI LIBRARY DIRECTOR

I am pleased to present the 13th edition of the EUI Academic Publications and Data directory covering the EUI members' contributions that appeared in 2020.

The Directory is traditionally organised by different types of publications: books, theses, articles, contributions to books, working papers, research reports, and datasets.

This 2020 edition also contains a separate first chapter including all the EUI contributions on the COVID-19 crisis, gathering publications by the EUI academics who have contributed to the research on the impact and consequences of the pandemic. The Library decided at an early stage to collect the material in a new collection entitled 'COVID-19 Pandemic'. It contains more than 220 contributions appearing in 2020 and includes both traditional and non-traditional academic outputs (such as blog posts, podcasts or registered video conferences on the subject).

Cadmus has since 2021 a complete archive of [The State of the Union\( SoU \) conferences](#), with detailed bibliographic descriptions of all the interventions. The 2020 SoU conference was held online only, and was devoted to exploring how Europe was managing the pandemic crisis, and its impact on three key policy areas: 1) health policy and society; 2) the economy and; 3) global cooperation.

A total of 54% of 2020's research outputs are Open Access – and are indicated as being so in each record. I am very pleased to note and announce that for the first time outputs in OA exceeds the non-OA content. I would like to acknowledge the Library's Open Science team which checks and assists EUI authors to know which version of a publication is possible to make available in OA. During 2020 the yearly page views of Cadmus increased by 43 %, reaching nearly 1 million visits.

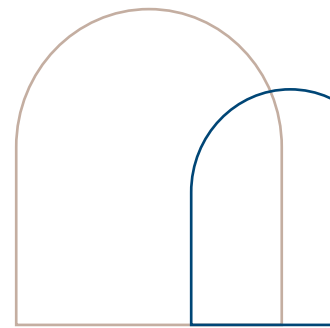

Members of the EUI are required to include their publications in Cadmus. Publications listed in Cadmus are automatically pushed to EUI members' ORCID profiles when they have connected them to EUI Cadmus <https://cadmus.eui.eu/ORCID/>. This service to authors results from an ORCID–Cadmus integration facilitated by the Library's ORCID membership.

Finally, I would like to thank all the members of the EUI community who submitted the details of their publications accurately. Without their co-operation, keeping the Cadmus repository up-to-date would be an impossible task.

# EUI RESEARCH, OPEN ACCESS AND CADMUS

[EUI research](#) embraces interdisciplinary, comparative or contextual approaches, and many of our initiatives have a specifically European perspective. Our research strategy promotes interaction among EUI scholars at all career levels and policymakers the world over, making lasting contributions in the realms of research and policy. The [EUI Open Access Policy](#) encourages scholars to facilitate the widespread dissemination of their research by making their publications available in Cadmus, the EUI's Research Repository.

More information on the [Library Open Science web pages](#).

The EUI has signed the following milestone declarations of the open access movement:

- the Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities (in 2011)
- the Budapest Open Access Initiative on its 10th Anniversary (in 2012)
- the European Open Science Cloud (EOSC) Declaration (in 2017). All institutions endorsing EOSC

The EUI institutional repository, Cadmus, registers EUI members' academic publications and data produced during their time at the Institute and those based on research carried out here.

Cadmus promotes the visibility of EUI research, and enables EUI academic community to make their research available online. Over the years, an increasing proportion of publications in the repository are available in Open Access.

Readers wishing to see the very latest EUI publications should consult Cadmus, the EUI Research Repository <https://cadmus.eui.eu>, which is updated daily and where an increasing amount of material is available in Open Access, in line with the EUI policy for Open Access aiming at making research as widely available as possible.

Over 1300 research outputs published in 2020 were added to the Institute's research repository Cadmus, to date. These include 503 peer-reviewed journal articles; 80 books; 95 theses; 131 book chapters; 154 working papers, 110 research reports; and well over 200 policy briefs and items of public commentary. Ten original research datasets were also added in 2020. This year's edition has a first chapter on EUI COVID-19 related research output with more than 220 contributions.

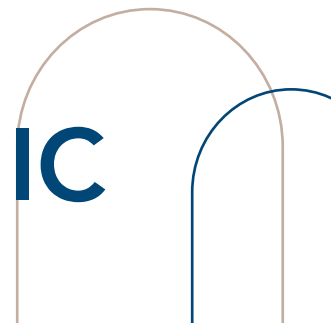

- [EUI Research Output 2020](#): 1,328
- [Open Access Output 2020](#): 712 (54%)
- [Research Data 2020](#): 10
- [Covid-19 Pandemic collection 2020](#): 241
- [Total records](#): 25,602
- [Total Open Access publications](#): 10,618 (41%) - All OA publications
- [Yearly visits](#): 364,000
- [Yearly page views](#): 1 million (300,000 more than last year)

The European University Institute is an institutional supporting member of [ORCID](#), the Open Researcher and Contributor ID, which uniquely identifies authors in the academic and scientific publishing world.

# EUI COVID-19 PANDEMIC COLLECTION

The EUI Library created this special collection in Cadmus entitled 'COVID-19 Pandemic' in April 2020. It belongs to the new community 'EUI Public Commentary'. The collection contains any type of contribution by EUI members on COVID-19, ranging from traditional publications such as articles or chapters to other material such as videos, podcasts and blog posts. It contains more than 240 contributions issued in 2020.

Records for the books, contributions to books, articles, working papers, research reports, datasets and other publications found in the COVID-19 Pandemic Collection are also included later in this report in their respective sections.
